

Ryarc CampaignManager 3.0

The 3rd generation platform from Ryarc provides an end-to-end media distribution and

playback management platform which can now be deployed by customers or service providers within minutes. It offers a Single platform to distribute, manage and control content to Digital Signage, Audio and Corporate Communication networks simultaneously or separately depending on customer requirements. CampaignManager is available in both Self install and SaaS options.

campaign manager

CampaignManager is an end-to-end Content management platform. Easy to use, yet with enterprise level tools and scalability, now boasts seamless integration with [Intel AMT and Intel AIM technology](#).

zusa

Zusa is the screensaver player component of CampaignManager which allows you to manage a corporate communication network from a central location. Ideal for Corporate Communications Channel delivered directly to Staff Desktops and Laptops.

dappler

Dappler is the audio software component of the CampaignManager which allows you to manage an in store radio network and many other audio based networks from a central location. Also fully integrated with [AIM and AMT](#).

- Ryarc are an ISV who have been in the Digital Signage space since 2004.
- We produce high quality software for Digital Signage and distributed audio.
- Our software is known for combining ease of use with a strong focus on manageability and enterprise tools.
- We are very tightly integrated with two key Intel technologies – AMT & AIM
